PCPAAA Region 1 Report for June Meeting

May brought the first general membership meeting in our new facility. We had no guest topic and the large group attending were able to tour the Police Department with Officer

Pace, every one had a wonderful time and enjoyed all the little tidbits he shared on the trials and tribulations of moving to a new building... He is quite the comedian so I understand.

During our business meeting we were thanked for supporting the grand opening event and the Officers Award Banquet.

We have three new recruits graduating from the police academy on the 25th and will be taking a van for those that would like to attend and support our new team members.

The Pear Run was very successful and had 503 registered runners. Monies raised were in excess of \$20,000.00, our net was \$18,000.00, we see great things in the future for this event. We have 2 new life members and 8 new members from the last graduating class attended our general meeting for the first time.

We were requested to assist with mirrors for the exercise room in the new building as this was not budgeted in the plans. We will support this request not exceeding 2,500.00.

Appreciation letters were given to members for help in physically moving to the Cullen address and the outstanding job done by the Pear Run Committee.

There was a discussion regarding TPCAAA and upcoming bylaw changes and board suggestions.

Our volunteer hours for May were _____
